

Triad strict-CI win extends from d=7 to d=9 at operational rates —
but PM wins at p=0.015 (above threshold)

100K shots / point. PFWL3S-H256-d9 loses to Lange individually at every rate, but the Triad strictly beats Lange at p=0.007 (0.154 pp CI-edge) and p=0.010 (1.831 pp CI-edge); point-estimate gaps are larger (0.346 / 2.233 pp).
